Water Treatment Salt

- Premium regeneration salts for water softening
- Helping you get the most from your appliances
- Protecting your appliances so they last longer
- Using our past to shape the future
- Providing solutions for many applications
- Sharing our unparalleled knowledge in salt
- Working with partners for better customer experience

BROXO has developed very pure regeneration salts, compacted under high pressure. Their quality products BROXO 6-15 and BROXO TABLETS, offer our customers tailor-made regeneration salts for all types of water softening installations, both industrial and domestic, as well as laboratories, hospitals and clinics.

BROXO products are made of very pure refined vacuum salt, free from any harmful soluble or insoluble contaminants. Insoluble contaminants damage pumps and valves and may be deposited in the brine tank. Soluble contaminants are a threat to the ion exchanger and the quality of the end product, 'soft water'. This is why no sea salt or rock salt is used in any BROXO product, but only very pure refined vacuum salt.

For the efficient, maintenance-free operation of your water softening installation, it is essential that top-quality regeneration salt is used. BROXO products meet all requirements to ensure smooth operation.

Water Treatment Salt

Broxo 6-15

10kg 60450110

99 Bags Per Pallet

25kg 60450100

49 Bags Per Pallet

- Suitable for all types of water softening systems
- Pure high-pressure compacted vacuum salt (99,8% NaCl)
- Evaporated Salt
- For use in domestic and industrial installations
- High quality granules from 6mm to 20mm
- Free of residual substances
- Dissolves evenly and gradually
- Excellent performance
- Certified QM System, ISO 9001/ 14001 NEN-EN 973 TYPE A

Broxo Tablets (Broxetten)

25kg 60450170

40 Bags Per Pallet

- Suitable for all types of water softening systems
- Pure high-pressure compacted vacuum salt (99,8% NaCl)
- Evaporated Salt
- For use in domestic and industrial installations
- High quality tablets (25x17mm)
- Free of residual substances
- Dissolves evenly and gradually
- Certified QM System, ISO 9001/ 14001 NEN-EN 973 TYPE A

Water Treatment Salt

INEOS Salt

From their dedicated vacuum salt plant at Runcorn, Cheshire, Ineos Salt supply the full range of quality products that fit most applications and industry needs including food salts, water softening salts, animal feed, industrial and chemical, and de-icing salts and operate to ISO9001:2000 standard.

The purity of their vacuum salts ensures top performance in all applications; our HYDROSOFT™ salt is Britain's leading water softening brand.

Hydrosoft™

- Hydrosoft is one of the main market leaders in water softening.
- Hydrosoft is available in both granular and tablet form.
- Hydrosoft salt is processed in a special evaporation process which forms single crystals of which Hydrosoft granules and tablets are made.
- Hydrosoft Salt contains no additives and is made to food grade quality.

Hydrosoft™ can be used for both domestic & commercial water softeners

Water Treatment Salt

koyuncu salt

Koyuncu Salt Plant is the largest salt producer in Turkey with its modern production facilities next to its Salt Lake. It carries out 50% of Turkey country's salt exports and exports to more than 50 countries in 5 continents.

Apart from natural raw salt, it also focuses on innovative products and offers a wide range of production and sales services from industrial salt to liquid salt.

Koyuncu leading brand Meinsalz caters especially for water treatment tablet salt Meinsalz Tablet and Meinsalz Type A Granular for de-icing.

Meinsalz salt is harvested from the Salt Lake right next to the Koyuncu plant. This salt lake is explored only by Koyuncu and it is protected by the Turkish Government.

Meinsalz Tablet Type A

25kg 60300200

49 Bags Per Pallet

- Smooth tablets
- Harvested directly from Koyuncu's own salt lake.
- Naturally harvested using evaporation technique with a mechanical process for refining salt
- Organic grade salt
- Dissolves evenly
- Ideal for water softening

Food Grade Salt

BRITISH SALT

Pure White Salt means British Salt

In Middlewich, Cheshire, British Salt operates a state-of-the-art, highly efficient and technically advanced salt plant. From here it supplies over half the UK's pure white salts offering the broadest product range.

Its range of salts and derivatives salt products are produced using ecologically sound processes in a self-sufficient, environmentally friendly, high efficiency operation.

British Salt has the capability to produce in excess of 800,000 tonnes annually and because of the efficiency of its extraction and processing operations, can optimize production across its range of products to meet cyclical volume demands of individual products.

The result? The result of this flexibility is that customers experience first class service and have year around continuity of supply with guaranteed volumes of consistently high-quality products.

British Salt PDV (Pure Dried Vacuum)

Salt Licks

IF YOUR ANIMAL COULD CHOOSE

KNZTM is short for the name of the first Royal Dutch Salt factory (Koninklijke Nederlandse Zoutindustrie) founded in 1918 in the Netherlands.

The KNZ brand is owned by Nouryon, formerly known as AkzoNobel Specialty Chemicals, also based in the Netherlands.

The brand KNZ is a worldwide well known brand, focusing on free choice and quality. We do not put artificial components in our licks, like sweeteners. So animals are not tempted to take more than necessary and will take exactly the amount of additional salt they need.

The high quality starts at the source. The salt is extracted locally, thanks to a well controlled process and evaporation we can make licks from very pure (vacuum) salt. The sourcing for the minerals and vitamins is strictly reliable and is GMP certified. KNZ licks are more resistant and durable under all conditions, both in the barn and on pasture. We use our knowledge and over 100 years of experience in pressing techniques to produce the high quality licks that meet our own high standards.

KNZ Universal Salt Licks 1 Cube 10kg

10kg

ROCKMNLKS

120 Per Pallet

- Contains the essential trace elements magnesium, zinc, copper, iodine and selenium
- Aids acid, fluid balance and digestion
- Plays an important role in central nervous system and muscular contraction
- KNZ Salt supports the intestinal flora, which results in better digestion
